

# Composting Facilities Across the United States

*NatureWorks™ PLA certified by BPI as compostable.*

Composting is a new method of recovery for biopolymers like NatureWorks™ PLA, which are used to produce everyday packaging and plastic consumer items. Derived from annually renewable resources found in natural plant sugars, NatureWorks PLA offers a more sustainable solution.

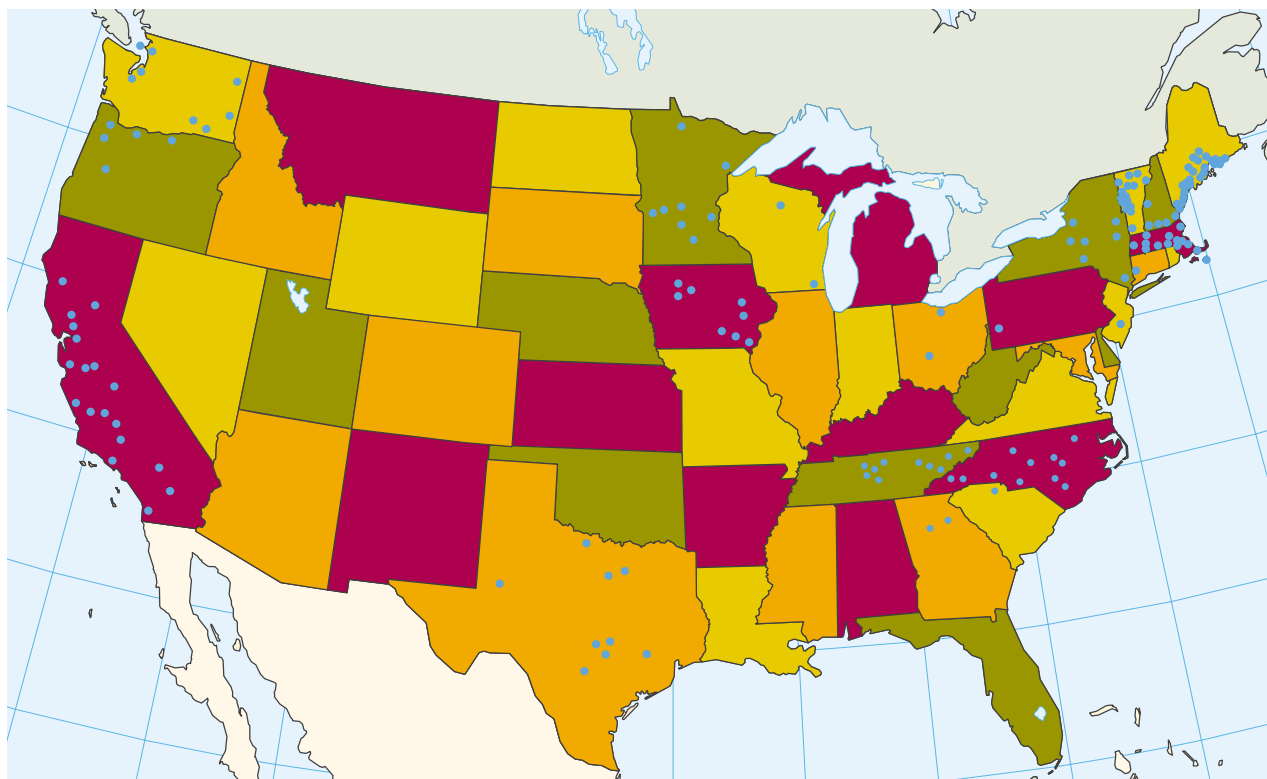

Global regulatory guidelines and standards for composting revolve around four basic criteria: material characteristics, biodegradation, disintegration and ecotoxicity (compost quality). In the United States, all required testing data for NatureWorks PLA was independently reviewed by the Biodegradable Products Institute (BPI) for certification according to ASTM 6400-99.

NatureWorks PLA received listing on the BPI positive list for compostable materials. End products made

with NatureWorks PLA will compost in municipal/ industrial facilities according to ISO, CEN, ASTM, BPI and DIN regulations.

On the following pages is a select list of industrial or municipal composting facilities in the United States. NatureWorks PLA has been successfully composted at some of these facilities. Contact your local facility operator to set up a program to collect and compost your PLA stream. Feel free to contact Cargill Dow for technical assistance with NatureWorks PLA.

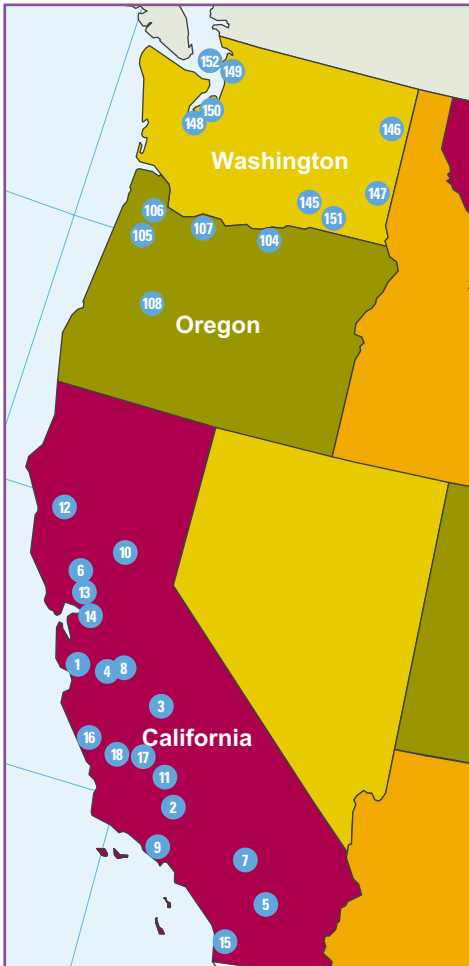

**For more information about NatureWorks PLA and its disposal options, please visit our Web site at [www.natureworkspla.com](http://www.natureworkspla.com), or call (877) 423-7659.**

# California, Oregon and Washington

## Composting Facilities Across the United States

	City	Facility
<b>California</b>		
1	Gilroy	Z-Best Composting
2	Lamont	Community Recycling
3	Milpitas	BFI Organics
4	Modesto	Grover Landscaping
5	Thermal	California Biomass
6	Vacaville	Jepson Prairie Compost Facility
7	Victorville	California Biomass
8	Modesto	Gilton Resource Center
9	Oxnard	Shoreline Organics
10	Folsom	City of Folsom
11	Lost Hills	San Joaquin Composting
12	Covelo	Cold Creek Composting Facility
13	Fairfield	Potrero Hills Landfill
